Erlenmatt: lifely, sustainable, oriented towards the common good

2000 watt society: who else if not us?

Neighborhood life: get active, get involved

Living space: less is enough

≪ Unser Boden ist nicht vermehrbar und bekanntlich im Kanton sehr knapp. Boden im Besitz der Allgemeinheit sollte sorgfältig bewahrt und wenn möglich vermehrt werden. Dadurch bleiben Gestaltungs- und Nutzungsmöglichkeiten für die Zukunft gewahrt, sei es für Wohnen, Gewerbe oder für Grünflächen. Und wenn die Allgemeinheit mehr Boden besitzt, kann sie auch auf die Wohnungspolitik Einfluss nehmen.

6. Silofest \rightarrow

Auf dem Areal Erlenmatt Ost soll ein Ort entstehen, wo gelebt und auch gefeiert werden darf.

In diesem Sinne sind Quartierbewohner, Stadtwanderer, Singles und Familien, Kinder und Grosse am Samstag, 9. September 2017 bereits zum sechsten Mal zum Silofest eingeladen.

Arrangement of nurseries, kindergardens, primary schools and district sports facilities within city-country-fingers (Pattern Nr. 3)

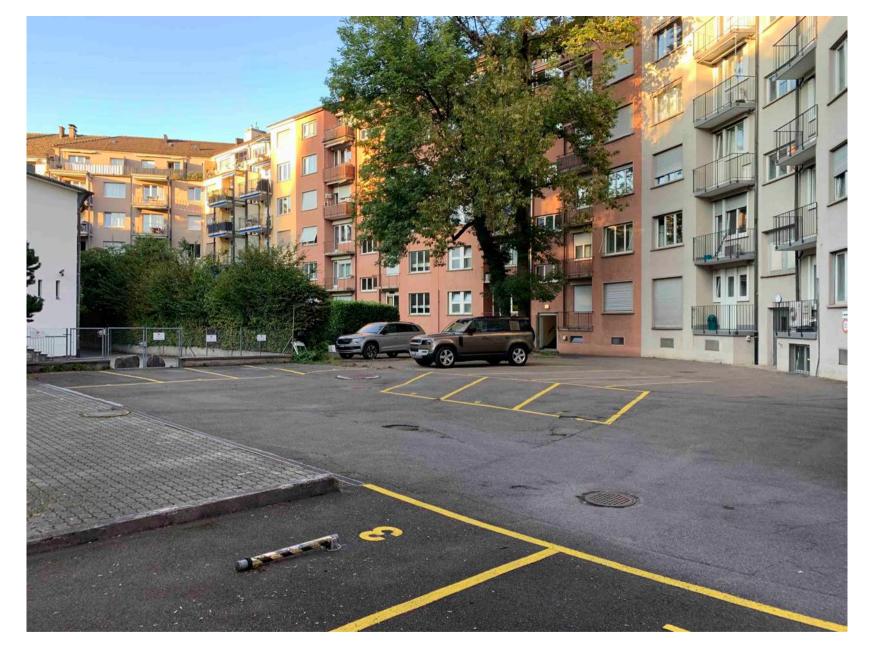

Kita in Bern, Büpliz, exceptionally with a large, beautiful garden, but a missing transition between outside and inside.

"Normal" situation of a day care center in the city of Zurich in an ordinary residential and commercial building.

"Garden side" of the KITA: not a single parking space is "sacrificed" for the elementary needs of small children.

Children don't need much more than a safe, natural place with a few facilities, KITA "Storchennest", St. Gallen Rhine Valley

"Playing is the highest form of research". (Albert Einstein)

6 Conclusions

- 1. The child does not exist. We have to distinguish at least 4 different developmental phases of childhood.
- 2. The break and crisis of puberty requires our special attention and mindfulness.
- 3. Social capital is only sustainable if a large part of the land is held in common property.
- 4. Social capital is only sustainable if it is organized through legal structures such as associations, cooperatives or foundations.
- 5. Social capital is only sustainable if the neighborhood is inhabited by 2-3 generations right from the beginning.

6. For more and more children in the age of preschool, between 1-5 years, the drama begins in nurseries and in day-care centers and finds its tragic continuation in the very "normal contemporary schools".
